3 July - 09.30/18.30
4 July - 09.30/12.30

***Profiles:** Policy makers; Managers; Clinicians; Researchers; Administrative.

Introduction

For the 2024 edition, it was decided to renew the format of the training activities. Lectures and interactive activities will alternate in a virtuous process, with the aim of integrating strategies, tools and implementation actions. The interactive sessions are aiming at boosting participants' knowledge and expertise.

As per previous editions, the reference framework of the training content will be the international and European one, following the analysis of the Italian "system" response on the principles/data, on the vertical initiatives of the regional/local levels aiming at producing concrete implementation and/or modification solutions.

It will be an opportunity to co-design an Italian roadmap of the workforce in the health system and to plan initiatives of the Italian system to contribute, on the specific theme, to the implementation of the "*Global Health Strategy: better health for all in a changing world (2022)*" in its Guiding Principle: addressing workforce imbalances and promoting skills.

WITH CONTRIBUTIONS OF:

*The World Health Organization - **WHO Europe**, the Organisation for Economic Co-operation and Development – **OECD**, the European Observatory on Health Systems and Policies – **EU OBS**, the European Commission with: Directorate-General for Structural Reform Support - **REFORM**, Directorate-General for Employment, Social Affairs and Inclusion - **EMPL**, European Health Management Association – **EHMA**, European Institute of Innovation and Technology – **EIT Health**, the European Public Health Association – **EUPHA**, the International Labour Organization – **ILO**, the European Regional and Local Health Authorities Network – **EUREGHA**, the Italian Ministry of Health – **MdS**, the Ministry of Labour and Social Policies – **MLSP**, the Ministry of Economy and Finance - **MEF**, the National Agency for Regional Health Services – **AGENAS**, the National Health Institute – **ISS**, the National Institute for Health, Migration and Poverty – **INMP**, National Federation of Associations of Nursing Professions - **FNOPI**, **Regions/Autonomous Provinces, local health authorities, Universities and Italian Research Entities** and not and other **European Experts**.*
