and Social Policies*

Friuli Venezia Giulia Autonomous Region

EIP AHA – Action Plan D4

Action on innovation for Age friendly environments

Support to active and healthy ageing through innovation for age-friendly buildings, cities and environments

Headline objectives:

- *to achieve 2 additional healthy life years for older people in the EU by accelerating the promotion, take-up and implementation of supportive **physical and social environments to support active and healthy ageing** throughout the EU, and*
- *to achieve this by fostering greater **participation of older** citizens, greater pan-european public and private stakeholder and cross-sectoral **collaboration**, and greater exploitation of **age-friendly innovation including the take-up of ICT solutions.***

What is the Action Plan D4 about?

Main activities and expected outcomes:

I. 14 commitments covering just over 400 partners representing 40 regions will implement strategies to create AFE in partnership with older persons and will share good-practice.

II. 8 groups (430 partners from 30 regions) will campaign for launch of an EU Covenant on Demographic Change to create necessary framework to bring together L+R actors to scale up innovative evidence based solutions across the EU and facilitate creation of a EU repository on AFE.

1.

III. 9 consortia (74 partners from 19 regions) will undertake research into links between spatial context and older people's health and wellbeing, to help develop cost effective solutions.

1.

IV. 12 consortia (137 partners from 17 regions) will undertake joint initiatives to tackle ethical issues and increase effectiveness of ICT based solutions to promote AFE.

What is the Action Plan D4 about?

Some deliverables:

- *Launch of concept of Covenant on Demographic Change with 50 regions and 100 municipalities actively engaged*
- *Operation, evaluation and replication of a new ICTenabled assisted-living housing scheme*
- *An independent living programme to support people with dementia to stay active in the community for longer*
- *Help develop evidence-based guidelines on urban strategic planning for age-friendly environments*
- *Develop a Computer-Aided-Evaluation of Accessibility tool for building design assessment*
- *Develop an ICT framework for accessible tourism*

Will develop principles and guidelines adapted to the EU context that will be used as a basis for the proposed Covenant and network of age-friendly environments

What is the Action Plan D4 about?

Popular and political support for an age-friendly environments by consulting and supporting networking between regions, cities and communities at both local and European level.

- **Action Area 1: develop activities to enhance participation** of older people at local level (users' council, older people's fora, platform, citizens dialogue, etc.) and to connect the voice of older people in place
- **Action Area 2: launch & analyse results of a questionnaire** to LRAs to collect grass root views on their needs and potential benefit of an EU initiative such as a Covenant on Demographic Changes
- Action Area 3: Joint initiatives into the links between spatial** context, cost effectiveness, population health, participation and wellbeing of older people
- **Action Area 4: Increase the effectiveness of innovative** solutions based on ICT products, & applications and services in order to promote age-friendly environments
