**«How to align DIH initiatives with RIS3:
a network for technology transfer at local level»**

16 June 2021

Andrea Jester – Nerosubianco Srl

Aligning DIH & S3: an agile network to facilitate digital technology transfer

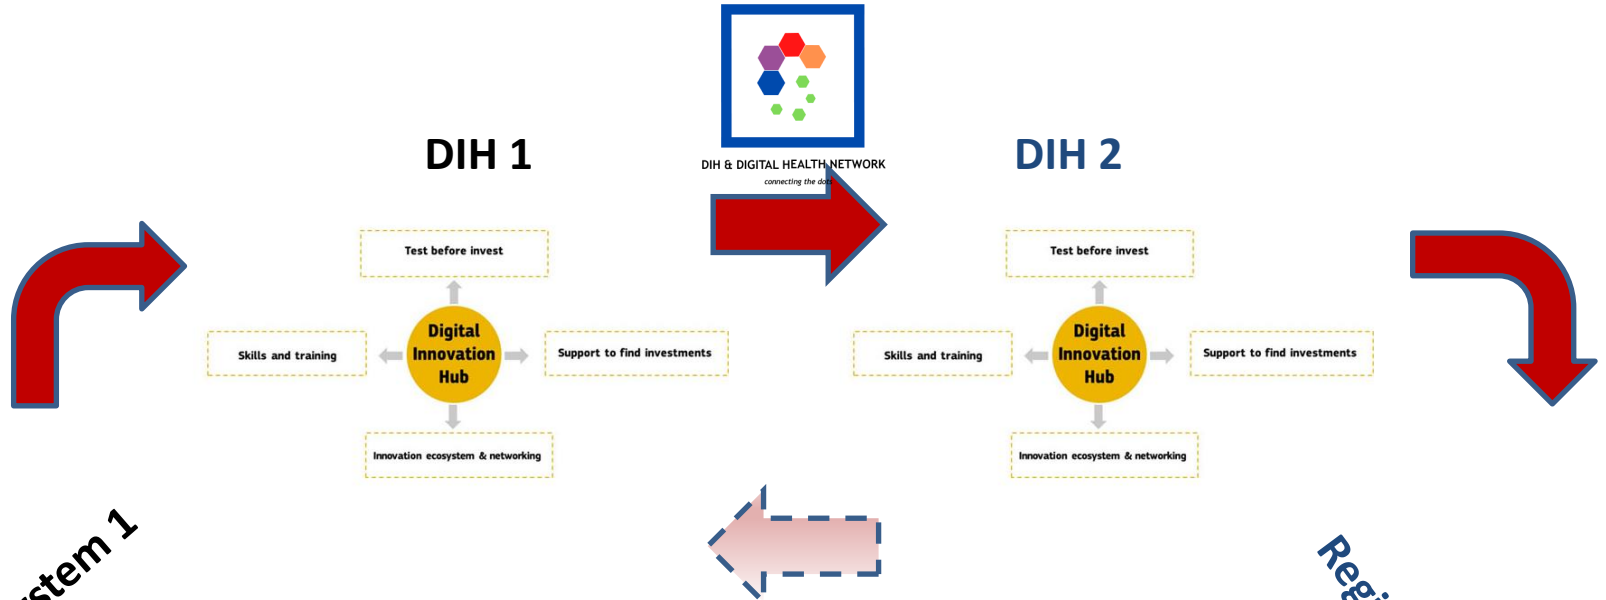

- **When it started:** March 2020 / Call CSA / PRO.M.I.S.
- **Why:** Set up a DIH based ecosystem that can facilitate the matching between the demand and supply of digital innovations/solutions
- **How we set it up and what we did at the beginning:**
 - We filtered DIH among those that were already cooperating under the (4MS, Robohelp projects) + S3 DIH Catalogue
 - We shared a light action plan with the initial 10 DIHs
 - Real coordination started in October 2020
 - ✓ Know each other
 - ✓ Identify thematic priorities

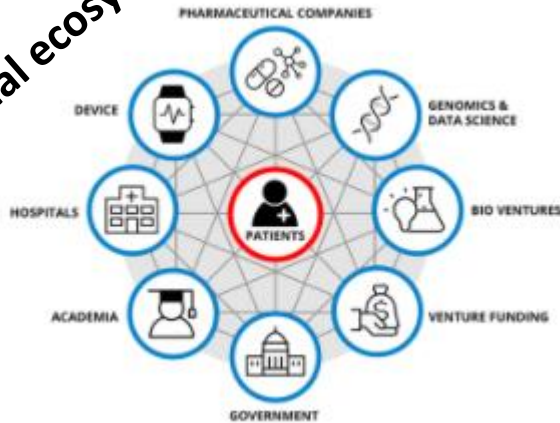

DIH & DIGITAL HEALTH NETWORK
connecting the dots

The vision behind the network - Level 1

Regional ecosystem 1

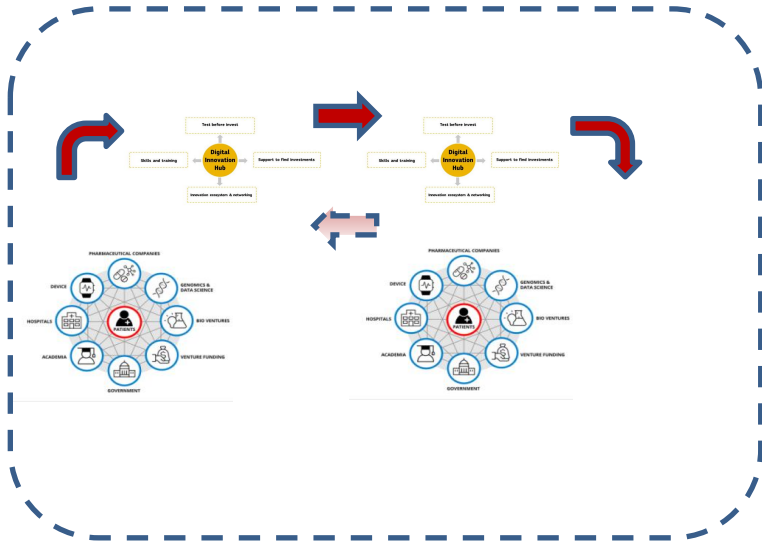

Regional ecosystem 2

Need/s & Solution/s

Need/s & Solution/s

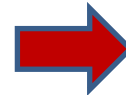

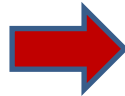

The vision behind the network - Level 2

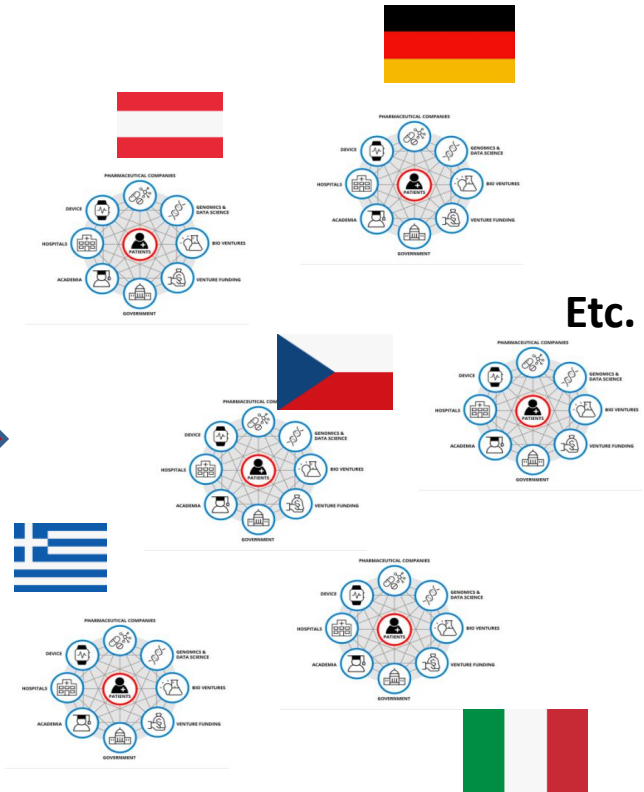

From local levels to wider EU ecosystems (and viceversa):
A WIDE «TEST BEFORE INVEST» PLATFORM

Need/s & Solution/s

Etc.

Who joined already

Country	Organization	Country	Organization
Austria	Mind Consult & Research	Hungary	Pannon Business Network AM
Belgium	IMEC	Ireland	Insight Centre
	Well Living Lab	Italy	Pro.M.I.S.
	Pole Meca Tech	Luxembourg	Innolux
Bulgaria	Health & Lifescience Cluster	Netherlands	University of Twente
Croatia	PAR University College Innovation Centre Nikola Tesla	Norway	University of Agder
Czech Republic	PRG AI Hub	Portugal	University of Porto
Denmark	Danish Technological Institute	Romania	Transilvania IT Cluster
Finland	University of Oulu		Cluj IT Cluster
France	Minalogic	Slovenia	Technology Park Lubjana
Germany	FZI Forschungszentrum Informatik	Spain	Tecnocampus Barcelona
Greece	National & Kapodistrian University of Athens		DIH Bio Madrid
	Institute of Entrepreneurial Development	Sweden	Lulea Technical University

Geographical coverage – The map

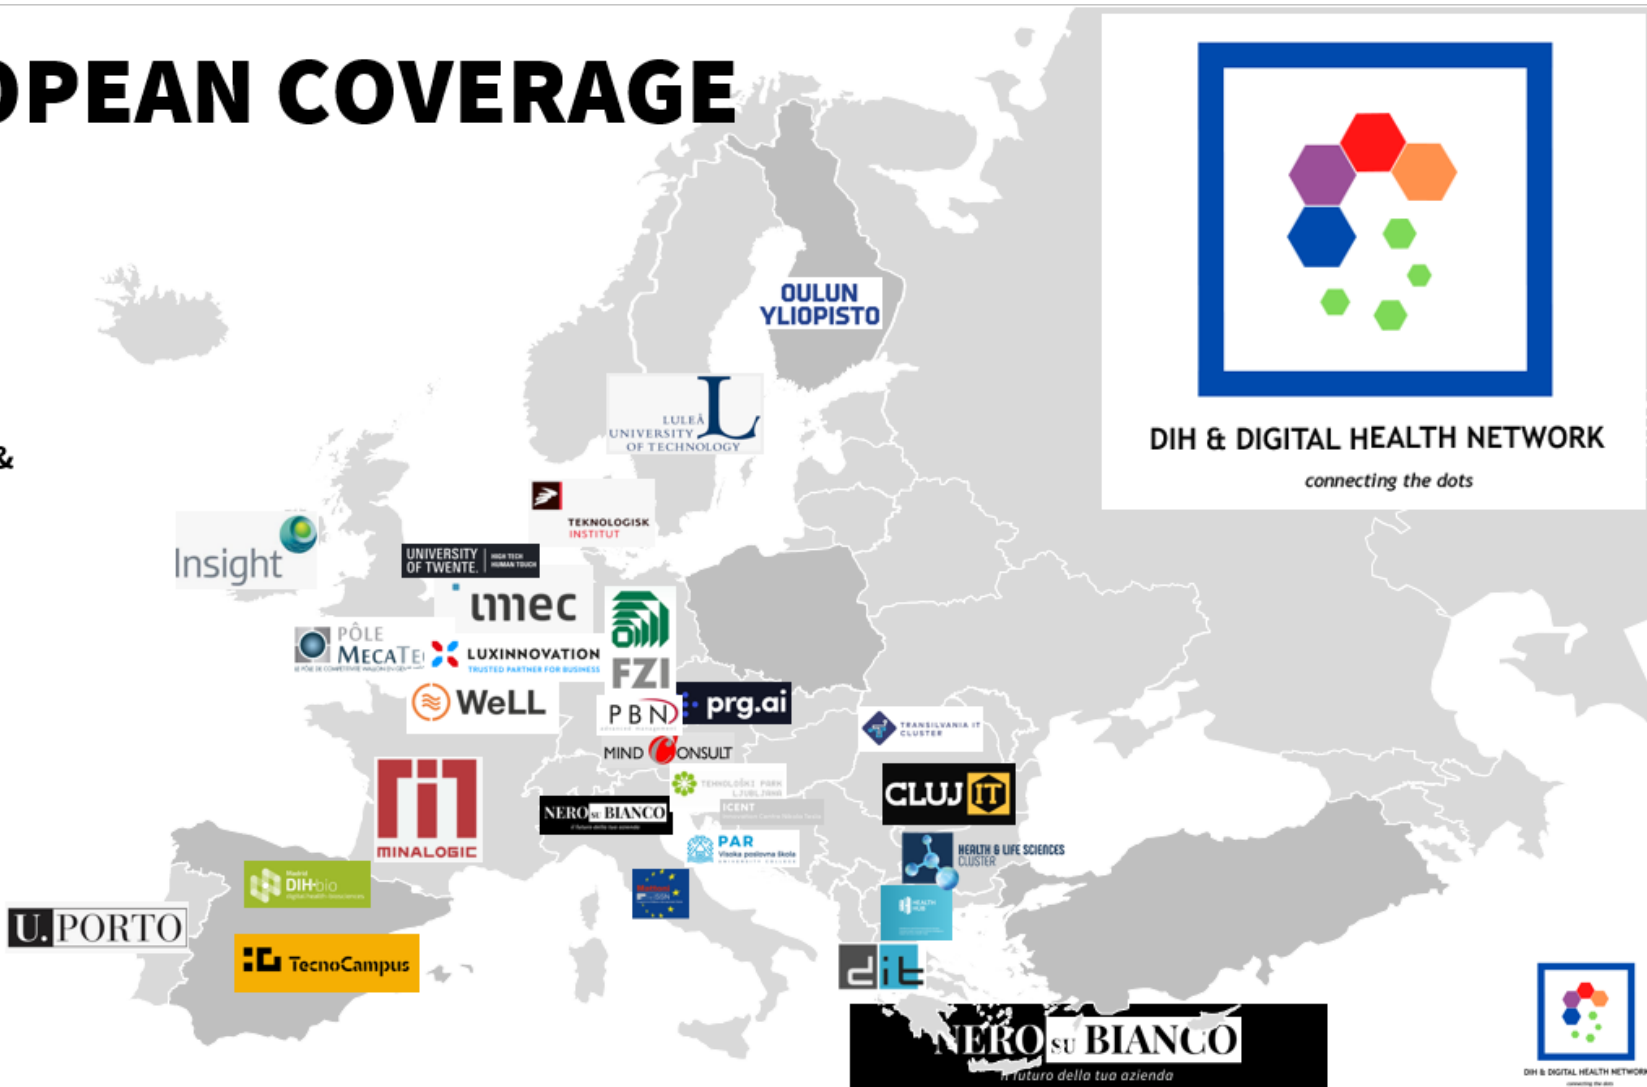

EUROPEAN COVERAGE

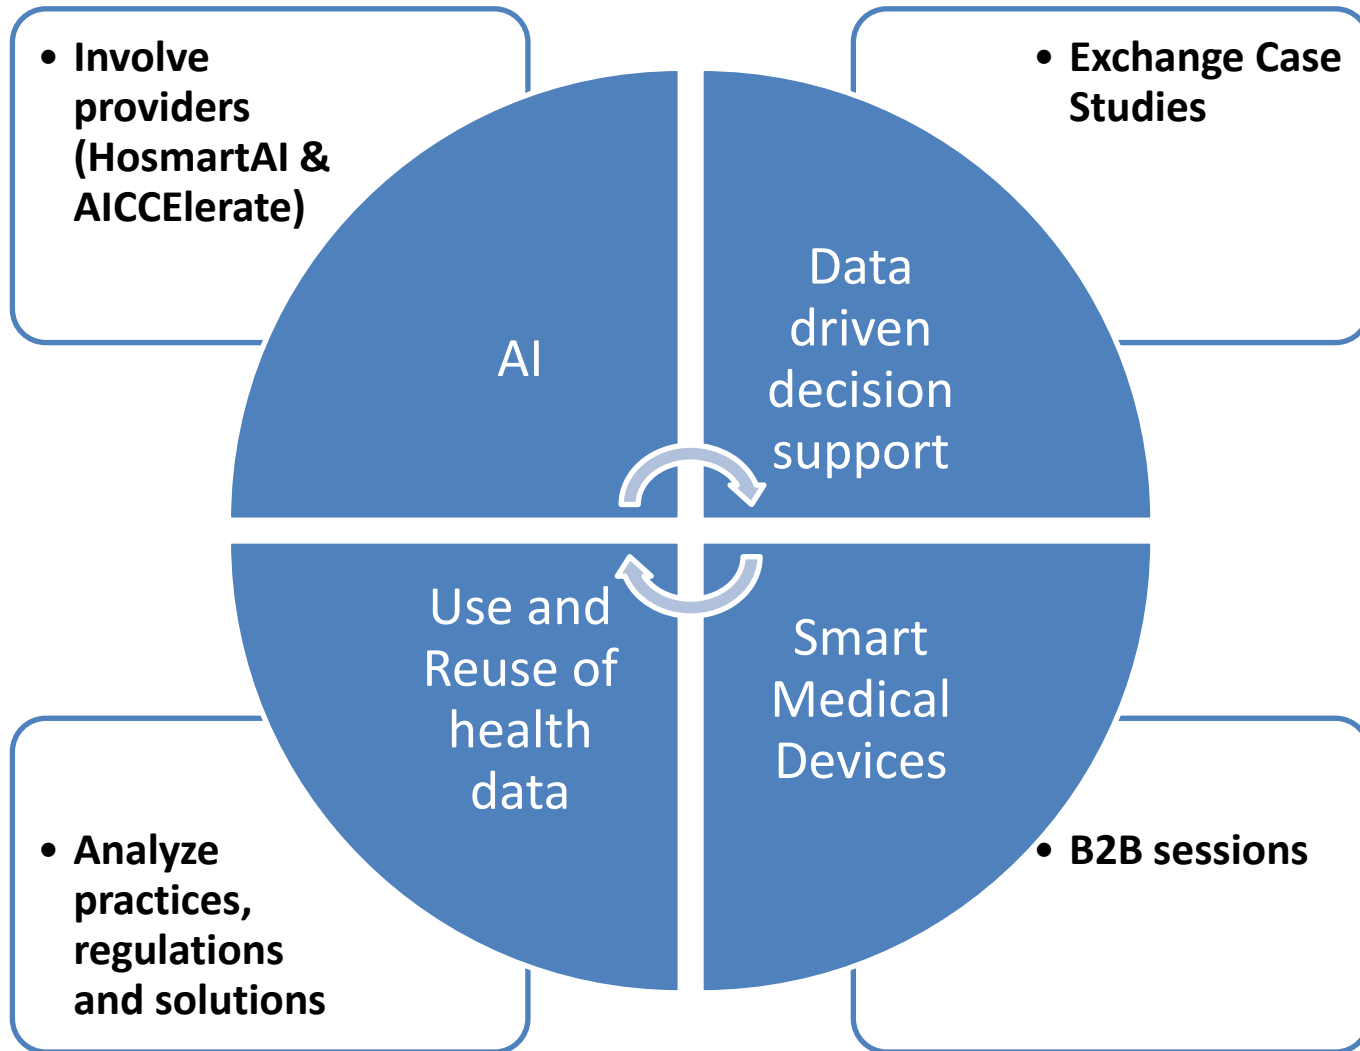

1 Topic:
Digital Health & Technologies

25 DIHs

1 Coordinator

Thematic priorities 2021-2022

Working method: DIHs & S3

Territorial level

Method

Goal

Europe vs regional level

«Corridors»

- Matching synergic services

Expand DIHs' outreach and service portfolio

Regional level vs Europe

Projects

- Plan new initiatives

Respond to new (or old) unmet needs

Regions vs Regions

Scouting

- Connect to running initiatives

Learn from living initiatives

First results and 2021 goals

Scouting

- Connections with 4 H2020 projects (robotics, AI and smart hospitals)

Projects

- 4 active groups
- Matchmaking events
- 2 submissions under Cascade Calls

Corridors

- 6 DIHs are designing joint service portfolios

2 thematic sessions

1 new project

2 to 6 DIH corridors

Sustainable organization by Q1 2022
