

Regional Policies for
Active and Healthy Ageing

Presentation of EIP AHA Action Group C2 (CORAL)

Carmen Pastor (TECNALIA, Basque Country)

Action Plan C2

Development of interoperable independent living solutions

What is the Action Plan C2 about?

The overall objective: "enhancing deployment and take up of interoperable independent living solutions based on open standards".

The specific action: "development of interoperable independent living solutions", supported by two deliverables:

- 1. By 2015 availability of key global standards and validated implementations of interoperable platforms, solutions and applications for independent living.***
- 2. By 2015 availability of evidence on the return on investment of these solutions and applications, based on experience involving at least 10 major suppliers, 100 SMEs and 10,000 users. The action group has expanded ROI to include socio-economic outcomes.***

Our focus: to deliver this in a way that enhances older people's quality of life, supports independent living & active ageing, boosts cost effectiveness for the health and social care sectors and promotes economic benefits.

European
Commission

Promote:

- Awareness, cooperation and confidence amongst and between stakeholders
 - The use of innovative procurement and regulations in regions
- Standards, guidelines and reference platforms for open interoperable solutions

Generate: evidence about the social and economic return on investment

Barriers to solve:

User empowerment and Procurement

Interoperable platforms

Evidence on return on investment

Collating and sharing practices (WP1)

Identify tools, good practice sharing event

Provision of technical tools
Evaluation framework
Validated reference architecture
Investigation innovative approaches

Identify available evidence and repositories

Analysis, guidelines, recommendations (WP2)

Development of toolkit & guidance

Provision of operational guidelines & best practice documents,
Recommendations

Agreeing taxonomy

Promotion & dissemination (WP3)

Platform Continues
Learning & community building, roadmap, training & awareness actions

Creation ecosystem community: liaising with pilots, reference sites for demonstration of the strength of tools, guidelines

On line open repository, Marketing of Data base

Project Management (WP0)

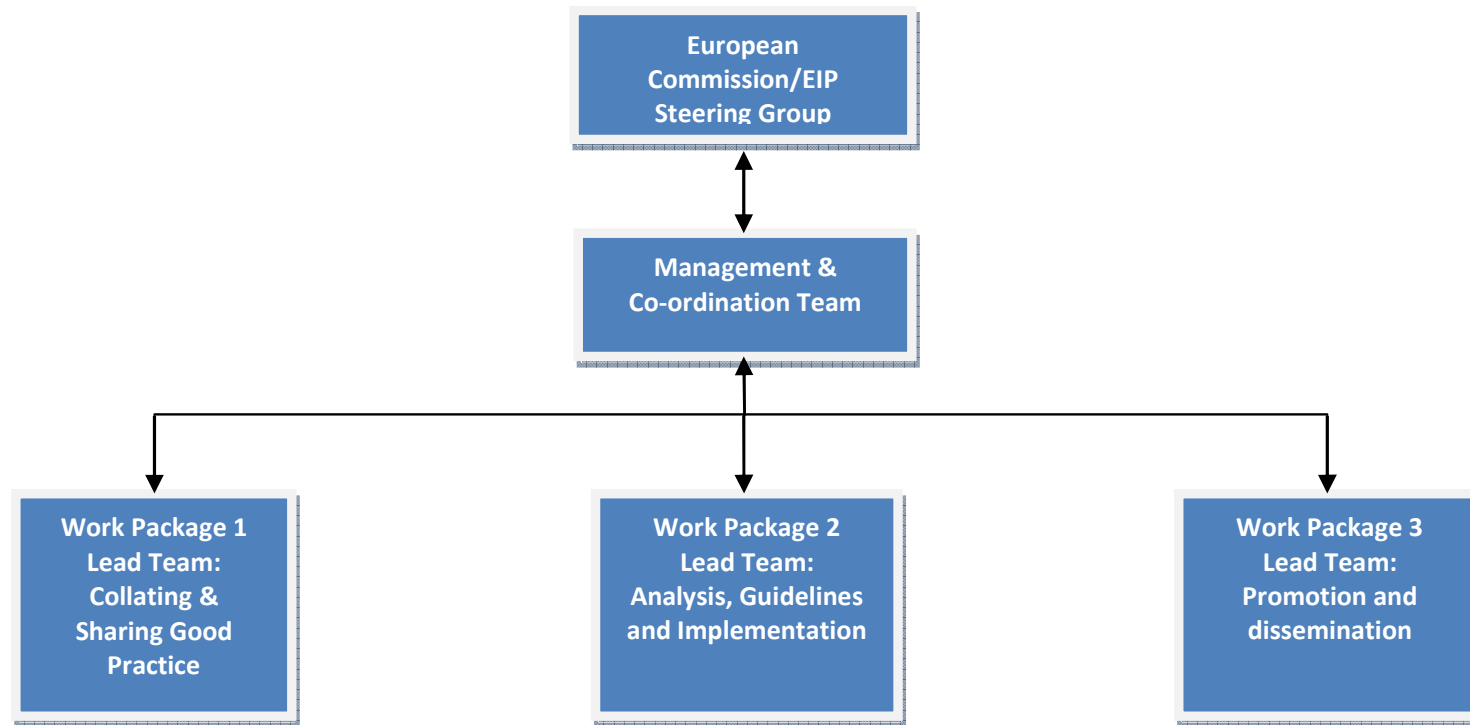

Deliverables

1. Guidelines on how to implement innovative procurement (2013-2015) based on experiences in at least 17 regions in Europe.
2. Identification of “fit for purpose” co-operation platform (2013)
3. Recommendations for interoperability process and standardisation (2013)
4. Set of good practice documents for the implementation of independent living solutions and recommendations (2013) based on experiences in at least 17 regions.
5. Toolkit/guidance for user empowerment (2014) incorporating co-creation, awareness raising and technical confidence building.
6. European AHA cooperation platform to incorporate continuous learning (2015) on procurement and user empowerment, and open, useable platforms, a roadmap and information on training and awareness raising
7. A self-sustainable repository of information, practice and evidence (2015)
8. A report that identifies the current social and economic return on investment on existing implementations (2015)

What is the Action Plan C2 about?

*-IK4 Research Alliance (Shabs Rajasekharan)
-NHS24 (Christine McCluskey)
-Brainport Development
-Trento Rise*

*-Liverpool Primary Care Trust (Jon Dawson)
-Triolog (Anthonio Kung)
-Dpt of Health, Social Services+Public Safety*

*-CORAL (Mariëlle Swinkels)
-AALOA
-AAL Association*

European Commission

Action Plan: close up (2013)

D1: Guidelines Implementation of innovative procurement

Contribution of Northern Ireland:

based on learning/experience from procurement of Telemonitoring NI as well as input to the EU funded ProeHealth "Study on enhancing procurement of ICT solutions for healthcare": **10 case studies of 10**

regions AOK Nordwest, Germany; The Municipality of Trikala, Greece; Northern Ireland, UK; Whole System Demonstrator, UK; The Northern Norway Regional Health Authority, Norway; Solimed Health Company Ltd, Germany; Catalanian Public Health Department, Spain; The Estonian Ministry of Social Affairs, Estonia; Autonomous Province of Trento, Italy; Uppsala County Council, Sweden

Contributions of other regions and EU projects:

CORAL, Scotland, Brainport, Centic Mutualité Francaise

Overall Objective: Enhancing deployment and uptake of interoperable independent living solutions based on open standards

Specific Action: development of interoperable independent living solutions, including guidelines for business models

SIP Deliverable 1: By 2015 availability of key global standards and validated implementations of interoperable platforms, solutions and applications for independent Living	Participants	Number of regions
Deliverable 1: guidelines on how to implement innovative procurement based on experiences in at least 17 regions in Europe (2013 - 2015)	Task 1.2: Innovative Procurement Task 2.2: development of guidance on innovative procurement	Santech Coral Northern Ireland* SIAT Brainport Scotland CHT/OULU City of Kuopio University of Valencia, (Task 1.2 - specifically pre commercial level) ST (Servicios de Telessistencia) Centic Mutualité Francaise Tecnalia General Council of Bas-Rhin Northern Ireland: 10 regions ** Scotland: 5 regions CORAL: at least 2 regions Brainport: 5 regions involved Centic Mutualité Francaise: 2 Regions

Action Plan: close up (2015)

D6: European AHA platform

Liaison with:

- *Reference sites,*
- *Pilot projects such as ReAAL or AAL JP projects*
- *The Market place EIP AHA*
- *A self-sustaining on line open repository of information, practice and evidence to promote the deployment of independent living solutions (SIP deliverable 2, ROI 2015)*
