

The cross-border care Directive (2011/24/EU) one year into practice

Date: 23rd – 24th October 2014

Venue: Venezia - Centro Culturale Don Orione Artigianelli
Fondamenta Zattere ai Gesuati, Dorsoduro 909/A

On 9 March 2011 the European Parliament and the Council of the European Union adopted the Directive on the application of patients' rights in cross-border healthcare (Directive 2011/24/EU). The Directive required Member States to adopt laws implementing it by 25 October 2013.

One year after its transposition, this event, organised in the framework of the Italian Presidency of the EU Council of Ministers, will take stock of the implementation status in Member States, look at the implications it has generated and explore the future perspectives in cross-border collaboration.

The policy seminar will analyze the role of the different levels of governance and will outline the best practices developed in cross-border collaboration.

Agenda

23rd October 2014
