

# **Il Secondo Programma Europeo di Azione in materia di Salute (2008-2013) I Parte**

# Fondi europei : un po' di chiarezza

- **Fondi a gestione nazionale**

(Es.: FESR, FES, FEOGA)

- Orientati prevalentemente allo sviluppo e alle esigenze locali
- Bandi regionali o altre forme di affidamento su base nazionale

- **Fondi a gestione centrale**

(Es.: EUHP 2008-2013, VII RFP/PQR)

- Orientati prevalentemente alla cooperazione tra esperti/professionisti e alla creazione di network trans-nazionali
- Partnership obbligatoria (almeno 3 Stati membri)
- Valore aggiunto europeo (non repliche/gemmazioni di interventi locali)
- Bando europeo

# Candidarsi ad un Programma europeo ?

## Motivazioni valide (e non)

### Corrette:

- Aumentare le proprie esperienze professionali
- Apprendere il lavoro di partnership e di gestione di rete
- Confrontarsi con altre culture
- Fare esperienza del contesto europeo (in vista di un possibile scenario dell' offerta sanitaria)

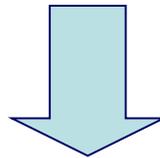

### Scorrette:

- Procurarsi fonti finanziarie alternative/più remunerative rispetto a quelle nazionali/locali
- Aumentare il prestigio personale nel proprio settore
- By-passare le criticità di rapporto con le proprie istituzioni locali/regionali

# Programmi Europei

## Luci ed ombre partecipazione italiana - 1

- Ampia e qualificata partecipazione
- Incompleta conoscenza dei dettagli di mission e di funzionamento dei singoli programmi
- Scarsa capacità di “fare rete” tra i soggetti nazionali con maggiori chance
- Insufficiente coordinamento inter-istituzionale e tra le istituzioni e i candidati

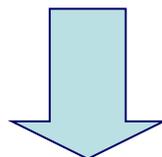

**Percentuale di successo inferiore alle possibilità**

# Programmi Europei

## Luci ed ombre partecipazione italiana - 2

- Scarsa correlazione tra priorità di intervento nazionali ed europee
- Limitato numero di italiani stabilmente inseriti nei contesti trans-nazionali
- Inserimento nei network europei di soggetti/organizzazioni poco rappresentative/influenti nel contesto nazionale
- Scarso trasferimento del “know how” dai soggetti partecipanti al resto del contesto
- Insufficiente pubblicizzazione dei risultati

**Modesta ricaduta sugli scenari nazionali**

### New Funding Opportunities in Health: Call 2009

26 February 2009

The European Commission has published today the Work Plan for 2009 for the implementation of second programme of Community action in the field of health.

The publication of the Work Plan was followed by the calls for proposals. The Executive Agency for Health and Consumers (EAHC) published calls for proposals for projects, operating grants, conferences and joint actions.

The Calls present new funding opportunities for the European organisations active in the area of public health. The total budget available for the execution of the 2009 Work Plan is about 48.2 million euro.

All proposals should address important problems in the European public health and be in line with the Commission's priorities expressed in the Work Plan.

The successful proposals should concentrate on concepts of public health that

## Health Programme

The Health Programme is the European Commission's main instrument for implementing the **EU health strategy**. The programme aims, through projects and other actions it funds, to improve the level of physical and mental health and well-being of EU citizens and reduce health inequalities throughout the Community.

In particular, the Programme supports health-promoting and preventive actions that address the major health determinants e.g., nutrition, physical activity, or smoking. The Health Programme is implemented in the form of annual work plans, which the European Commission adopts. The first Programme of Community action in the field of public health (2003-2008) financed over 300 projects and other actions
