CALL FOR INTEREST

The "Support for the health workforce planning and forecasting expert network"¹ joint tenderer

CALLS

EU Member States engaged in health workforce planning to express their

INTEREST

to **receive a tailored advice and guidance** through expertise provided by the Network to support health workforce planning improvements.

- ✓ Do you need improvements in your national/local health workforce planning?
- ✓ Are you committed to develop your health workforce planning capacity in your country?
- ✓ Would you like to have a tailored consultation from experts?

SUPPORT FOR THE HEALTH
WORKFORCE PLANNING AND
FORECASTING EXPERT NETWORK

Work Package 5

Objectives

- To disseminate the outcomes of the tender activities on the website healthworkforce.eu and newsletters
- To provide information on latest health workforce planning and policy developments
- To share good practices, materials and experiences of different stakeholders in different MSs

SUPPORT FOR THE HEALTH
WORKFORCE PLANNING AND
FORECASTING EXPERT NETWORK

The "Support for the Health Workforce Planning and Forecasting Expert Network" tender aims to sustain cross-country cooperation and provide support to Member States to increase their knowledge, improve their tools and succeed in achieving a higher effectiveness in health workforce planning processes and policy. The tender aims to establish an expert network in the field of European health workforce planning.

- ♦ Let us share knowledge and expertise across countries and sectors.
- ♦ Let us activate an effective dialogue to respond challenges together.
- ♦ Let us exchange ideas and discuss crucial issues of health workforce planning by joining our Network at the EU Health Policy Platform.
- ♦ Subscribe the "EU Health Workforce Network Update" newsletter to receive the latest updates from the field.

EU Health Workforce Network Update

1st edition

The new Joint Tender "Support for the health workforce planning and forecasting expert network" was launched

Building on the results of the Joint Action for Health Workforce Planning and Forecasting (2013-2016), a joint tender entitled "Support for the health workforce planning and forecasting expert network" was launched funded by the [Health programme](#) of the European Union to establish an expert network on health workforce planning and forecasting. The joint tender is led by Semmelweis University with the partners of University of Leuven (Katholieke Universiteit Leuven), Italian Ministry of Health (Ministero della Salute), Italian National Agency for Regional Health Services (AGENAS), and the Standing Committee of European Doctors (CPME). The key objective of the three year long joint tender is to support and strengthen the cooperation of experts in the field and to disseminate and share the constantly accumulating knowledge. This joint tender will become an important driver for expertise and knowledge sharing on health workforce, and it also focusses on collecting research evidence and experience of Member States, and supports improvements and implementation of health workforce development in the EU.
