Coral partners

Working methodology

- **1 strategic meeting a year** – in February 2016 in Lubljana (the previous ones in Barcellona and Berlino) – **this year in Antwerpen (Belgium)**

- **3 regular meetings in Bruxelles**

- **Joint Brokerage Event**

- **Project development sessions**

- **Collaboration with other EU network**: ECHALLIANCE, Ambient Assisted Living Association, ERRIN (European Regions for research and Innovation), AER (Assembly of the European Regions)

CORAL and ECHALLIANCE a deeper collaboration in 2016:

- Ljublijana - launch of the Slovenian Ecosytem
- Barcelona – a joint session on dementia within the «Digital health & Wellness Summit ⓘ Mobile World
- Amsterdam – E-Health week 2016 – collaboration during the event, at sessions and networking

A platform for EU projects

Projects already concluded

- **CASA – Interreg IVC**
- **Smartcare – CIP-PSP – FVG/ASS 1**

Lead Partner - *An integrated Care Collaborative Platform, aiming at the integration between social and health service providers*

- **ENGAGED – CIP-PSP**

Presidenza della Regione
Servizio relazioni internazionali ed infrastrutture strategiche
Ufficio di collegamento di Bruxelles

- **The CASA (Consortium for Assistive Solutions Adoption)** project is about the development of regional policy and exchange of knowledge about the large-scale implementation of innovative ICT and services for independent living. Demographic changes make it necessary to organise the care and residential environment of senior citizens and chronically ill smarter with the use of ICT. This also provides opportunities for innovative companies to develop new tools and services.

- Coral is content manager of the CIP ICT PSP Thematic Network ENGAGED. This project aims to build a learning community of stakeholders who cooperate to promote the transferability of evidence, as well as common strategies, for wider deployment and market development of active and healthy ageing services.

- Coral regions are part of SmartCare, a CIP ICT PSP project that will explore and demonstrate the added value – and promote the wider adoption – of integrated care through piloting the deployment of ICT supported care services in 10 regions. Lead partner: Friuli Venezia Giulia Autonomous Region - Guidelines for the implementation of integrated e-care service:
