Policy

EU Health Journey – Equity Lens

What we have learnt

- Alignment in timelines and diseases
- Targeted Interventions and Policy Perspective
- Prioritisation of patient-centred and digital solution
- Equity lens

Facilitation Questions:

- How can we foster future synergies across health initiatives to achieve greater collective impact?
- What strategies can we adopt to maximize the long-term impact of our interventions while ensuring sustainability?
- How can we enhance the sharing and integration of tools and methodologies across projects to streamline efforts and improve outcomes?
- In what ways can we more effectively incorporate an equity lens into all interventions and policies to ensure inclusive and fair health solutions?
